ABOUT ME

Highly skilled Java and Spring Boot developer with extensive experience in microservice architecture, REST API development, and database management. Proven track record in delivering high-quality code, participating in code reviews, and collaborating with cross-functional teams. Adept at providing support, maintenance, and development for banking applications across various international projects.

PROFESSIONAL EXPERIENCE

Developer

Tata Consultancy Service

Oct 2021 - Aug 2023

- I have worked on Java, Spring Boot, SpringMVC, Oracle SQL and Micro- service developer on a Kuwait based Banking Project giving support, maintenance and development . In this project I have handled three main applications including two Web application and a Standalone application.
- Participated in code reviews and testing to ensure high-quality code.
- Worked with cross-functional teams to troubleshoot and resolve technical issues.

Aug 2023 - Dec 2023

- I have worked on Spring Boot, REST APIs, and microservice development for a mobile application project for a Dubai-based bank, providing both support and development.

Dec 2023 - Present

- I am currently employing as a Java-Spring Boot and ETL developer (using AbInitio) working on a development project for a South Africa-based banking application.
